Guidelines

- Applicants must complete all required questions and uploads before submitting the application.
- NAAF chooses to err on the side of giving maximum space for text block responses (10,000 characters, or 3.5 pages). This should **not** be interpreted as a requirement to fill all available space. Please give sufficient detail for evaluators to understand your proposal without straining to fill space.
- Unless otherwise noted, uploads must be in .pdf format.
- Upload areas have a maximum file size. If you run into issues, consult this document on reducing PDF file size
- Double-check your application to make sure all uploads are correct. There is no opportunity to amend the application after the deadline.
- NAAF encourages you to submit the application in advance of the deadline to avoid unexpected technical difficulties.

Collaborate Feature

Sections of this application may require input from other members of your team. We encourage you to use Foundant's 'Collaborate' feature to invite those team members to edit the application with you. This is particularly important for organizations applying with a fiscal sponsor.

To collaborate:

- Look for a blue button in the top right corner of the page labeled 'Collaborate'
- Click the button and add the email address of the team member
- Select permissions; either 'can edit' or 'can submit'
- Finish the process by clicking 'Invite'
- There is no limit on how many collaborators you can add to the application. This method is preferred to sharing the username and password for one account.

"Instrumentalities of Tribes (of state recognized or federally recognized Tribal governments) can mean any number of things such as Tribal departments of agriculture, food authorities or even food processing or food marketing entities. Tribal governments have the latitude to determine which entities are instrumentalities of their governments; NAAF only needs proper documentation as to that status. If an organization has eligible status as an educational institution or a 501(c)(3) nonprofit organization, for instance, but wishes to be considered as an instrumentality of a Tribal

government, they must secure and submit an authorizing document from their Tribal government to that specific effect. A statement from an organization other than a Tribal government will not suffice for this purpose."

Access to Capital

The following is an excerpt from the 2022 RFA Overview:

"Because the central issues in the litigation that led to NAAF's creation involved access to capital, NAAF requires all applicants to incorporate strategies that will improve access to capital by Native farmers and ranchers in their proposed activities. Access to capital can be shown by any of the following types of activities: business planning or market planning training; financial education; credit education for scholastic students; record keeping; credit repair activities; targeted credit application training or technical support; risk analysis and related activities to prepare Native farmers and ranchers as they seek capital to support their enterprises. ...

... Capital is always needed in agriculture enterprises and will always be relevant to those involved in food and agriculture. NAAF has increased the weighting we apply to this evaluation criteria as we review all applications. **Applications that are absent any discussion of access to capital or management of agricultural risk will not be considered for funding.** We encourage you to view our video on access to capital and Evaluation Criteria section on page 22 for more information."
